

# Create a unique play environment with **PlayMounds**!

The world isn't flat, why should your playground be?

## Benefits of PlayMounds

- Unlimited shape and contour options for truly unique designs.
- Guaranteed against settling.
- Built-in safety surface with a nine-foot critical fall height rating.
- Perfect for rooftop applications.
- Fast and efficient installation.
- Smaller PlayMounds can be relocated for seasonal use.
- Ability to integrate play components into the PlayMounds.
- Unique options for play surface and landscape surface designs.

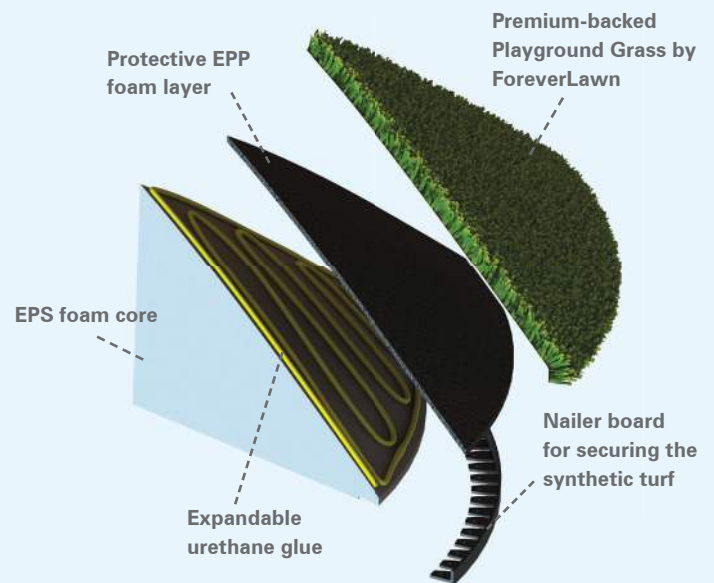

## What are PlayMounds?

**PlayMounds™** are a line of prefabricated foam mounds that add contour and creativity to the playground landscape. With a protective layer of construction-grade expanded polypropylene (EPP), PlayMounds provide durable, long lasting surface innovations. This revolutionary design and fabrication method is patent pending, and available only from **ForeverLawn®**.

## How are PlayMounds made?

- A core is fabricated from expanded polystyrene (EPS).
- A half-inch layer of expanded polypropylene (EPP) is added.
- The patent pending layering system provides incredible durability and longevity.
- Finished with rugged premium-backed Playground Grass™ by ForeverLawn.

# Standard PlayMounds. Innovative Play.

PLAYGROUND GRASS™  
////////////////////

## Standard PlayMound

A mound designed to add a gentle rolling effect to your playground.

**Mounds available in five sizes:**

**12'x12'x3' 10'x10'x3' 8'x8'x18" 5'x5'x10" 4'x4'x10"**

## PlayMound with Tunnel

The Standard PlayMound with tunnel was created to add an option for kids to crawl up one side and through another.

**Mounds available in two sizes:**

**12'x12'x3' 10'x10'x3'**

## Bridge PlayMound

An 8' long by 4' wide by 34" high mound with a 24" tunnel for kids to explore by walking over and crawling under the mound.

## Berm PlayMound

An 8' long by 4' wide by 34" high hill providing kids with the opportunity to actively traverse the surface of the playground.

## Mini Hill PlayMound

A 6'11" long by 4' wide by 21" high mini hill designed to invite active exploration.

## Balance Beam Mound

The standard Balance Beam Mound is an 8' wooden beam running between two PlayMounds, designed to build balance and dexterity.

**Mounds available in two sizes:**

**5'x5'x10" 4'x4'x10"**

## Slide Mound

The standard Slide Mound contains a plastic slide, allowing kids to traverse the mounds in a new way.

**Mounds available in two sizes:**

**10'x10'x3' 8'x8'x18"**
